PROFESSIONAL SUMMARY

Motivated **Junior Web Developer** transitioning from a 9 year career as a **Tugboat Master** at Metro Cebu Harbor Pilots Co., Inc. Bringing strong leadership, problem solving, discipline, and decision making skills into web development.

Hands on experience with **HTML, CSS, JavaScript, PHP, Laravel, and MySQL**, with practical knowledge of Git/GitHub and modern development tools. Comfortable using **Chat GPT and Gemini CLI** for AI assisted development, debugging, and workflow improvement.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript

Backend: PHP, Laravel

Database: MySQL

Version Control: Git, GitHub

Development Tools: VS Code, npm, Composer, PowerShell

AI-Assisted Development: Chat GPT, Gemini CLI, AI workflows

PROFESSIONAL EXPERIENCE

Metro Cebu Harbor Pilots Co., Inc.

Tugboat Master | 9 Years

- Led and managed tugboat operations in a demanding and safety critical environment.
 - Responsible for operational decision making, coordination, and effective communication.
 - Developed strong problem solving, leadership, teamwork, and attention to detail skills.
 - Worked effectively under pressure while following established procedures and safety standards.
-

WEB DEVELOPMENT EXPERIENCE

Personal & Open Source Development Projects

- Develop and modify web applications using **PHP and Laravel**.
 - Work with **MySQL databases**, migrations, models, and CRUD operations.
 - Build interfaces using **HTML, CSS, and JavaScript**.
 - Use **Git and GitHub** for version control and project management.
 - Use **Composer and npm** for project dependencies.
 - Use **VS Code, Chat GPT, and Gemini CLI** to assist with coding, debugging, code analysis, and development workflows.
-

EDUCATION

[Bachelor of Science and Marine Transportation / BSMT]

[Salazar Collages of Science and Institute of Technology] - [2010-2013]

CAREER OBJECTIVE

To transition into a **Junior Web Developer** role where I can apply my growing technical skills, professional discipline, and problem solving experience while continuing to develop as a software professional.
